

**“ I can say...**

**'laboratory reagents for fluorescent antibody techniques, complement fixation tests, identification of bacteria and viruses, haematology, pregnancy diagnosis, buffering, radio-immunoassay, quality control sera, microtitrations and veterinary diagnosis'**

**in 12.5 seconds!  
Beat that if you can!"**

**“Wellcome”**

Quick, too, is the delivery of all these laboratory diagnostics from Wellcome Reagents Limited. They are subjected to rigorous quality control, their performance is consistent and they are backed by Wellcome Research Laboratories' own original immunological work.
