

# The Journal of General Virology

Volume 64, Part 6, June 1983

PAGES

## REVIEW ARTICLE

The Proteins of Morbilliviruses. By B. K. RIMA . . . . . 1205-1219

## ANIMAL

- Baculovirus Replication: Inhibition of *Trichoplusia ni* Multiple Nuclear Polyhedrosis Virus by [E]-5-(2-Bromovinyl)-2'-deoxyuridine. By X. WANG, T. LESCOTT, E. DE CLERCQ and D. C. KELLY . . . . . 1221-1227
- Patterns of Single- and Double-stranded Hepatitis B Virus DNA and Viral Antigen Accumulation in Infected Liver Cells. By E. J. GOWANS, C. J. BURRELL, A. R. JILBERT and B. P. MARMION . . . . . 1229-1239
- Specific Selection of Host Cell Glycoproteins during Assembly of Murine Leukaemia Virus and Vesicular Stomatitis Virus: Presence of Thy-1 Glycoprotein and Absence of H-2, Pgp-1 and T-200 Glycoproteins on the Envelopes of these Virus Particles. By J. CALAFAT, H. JANSSEN, P. DÉMANT, J. HILGERS and J. ZÁVADA . . . . . 1241-1253
- 17D Yellow Fever Virus Infection of P388D<sub>1</sub> Cells Mediated by Monoclonal Antibodies: Properties of the Macrophage Fc Receptor. By J. J. SCHLESINGER and M. W. BRANDRISS . . . . . 1255-1262
- Dense Particles and Slow Sedimenting Particles Produced by Ultraviolet Irradiation of Poliovirus. By K. WETZ, H. ZEICHHARDT, P. WILLINGMANN and K.-O. HABERMEHL . . . . . 1263-1275
- Early RNA Synthesis in Bunyamwera Virus-infected Cells. By G. ABRAHAM and A. K. PATNAIK . . . . . 1277-1290
- Interferon-mediated Development of Influenza Virus Resistance in Hybrids between Mx Gene-bearing and Control Mouse Embryo Fibroblasts. By M. RUFF . . . . . 1291-1300
- A Colorimetric Assay for Quantification of Defective Interfering Particles of Respiratory Syncytial Virus. By M. W. TREUHAF . . . . . 1301-1309
- Ultrastructural Characterization of Herpes Simplex Virus Type 1 (Strain 17) Temperature-sensitive Mutants. By D. DARGAN and J. H. SUBAK-SHARPE . . . . . 1311-1326
- Herpes Simplex Virus-induced Ribonucleotide Reductase: Development of Antibodies Specific for the Enzyme. By D. HUSZAR, S. BEHARRY and S. BACCHETTI . . . . . 1327-1335
- Quantitative Analysis of the Cooperative Effect between Inducers of Epstein-Barr Virus Antigen Synthesis. By G. BAUER . . . . . 1337-1346
- Inactivation of Measles and Herpes Simplex Viruses by Trypan Blue. By H. V. THORNE and G. F. CLARKE . . . . . 1365-1368
- The Role of Pseudorabies Virus Thymidine Kinase Expression in Trigeminal Ganglion Infection. By R. B. TENSER, S. J. RESSEL, F. A. FRALISH and J. C. JONES . . . . . 1369-1373
- A Comparison of the Terminal Protein and Hexon Polypeptides of Avian and Human Adenoviruses. By P. LI, A. J. D. BELLETT and C. R. PARISH . . . . . 1375-1379
- Analysis of Sequences of Simian Adenovirus SA7 (C8) DNA in Transformed Rat Cells and Hamster Tumour Cells. By A. L. GARTEL, N. M. CHAPLYGINA, T. I. PONOMAREVA, G. I. TIUNNIKOV, R. S. DREIZIN and T. I. TIKCHONENKO . . . . . 1381-1386
- Failure to Modify Scrapie in Mice by Administration of Interferon or Anti-interferon Globulin. By I. GRESSER, C. MAURY and R. L. CHANDLER . . . . . 1387-1389
- Properties of Non-glycosylated Human Interferon- $\beta$  from MG63 Cells. By Y. WATANABE and Y. KAWADE . . . . . 1391-1395
- Characterization of Ribonucleic Acid Transcriptase in Ibaraki Virus Core Particles. By M. NAMIKI, Y. SUZUKI, S. NAKAGAWA, I. YOSHIOKA and Y. SAITO . . . . . 1397-1400
- The Avirulent A7 Strain of Semliki Forest Virus Has Reduced Cytopathogenicity for Neuroblastoma Cells Compared to the Virulent L10 Strain. By G. J. ATKINS . . . . . 1401-1404
- Neutralizing and Non-neutralizing Monoclonal Antibodies to the E<sub>2</sub> Glycoprotein of Semliki Forest Virus Can Protect Mice from Lethal Encephalitis. By W. A. M. BOERE, B. J. BENAÏSSA-TROUW, M. HARMSSEN, C. A. KRAAIJEVELD and H. SNIPPE . . . . . 1405-1408
- Purification and Molecular Weight Determination of Measles Virus Genomic RNA. By K. BACZKO, M. BILLETER and V. TER MEULEN . . . . . 1409-1413
- Generation and Characterization of a Non-defective Interfering Particle of Vesicular Stomatitis Virus: Homotypic and Heterotypic Interference. By G. J. WILLIAMS and H. R. THACORE . . . . . 1415-1420
- Biochemical Characterization of Eel Virus European. By R. P. HEDRICK, N. OKAMOTO, T. SANO and J. L. FRYER . . . . . 1421-1426

## PLANT

Inference in Infections of Tobacco Protoplasts with Two Bromoviruses. By F. SAKAI, J. R. O. DAWSON and J. W. WATTS . . . . . 1347-1354

## BACTERIAL

Correlation of Genetic Loci and Polypeptides Specified by Bacteriophage T1. By D. A. RITCHIE, D. H. JOICEY and D. T. M. MARTIN . . . . . 1355-1363
