

The Journal of General Virology

Volume 67, Part 11, November 1986

PAGES

REVIEW ARTICLE

- DNA Cloning Vectors Utilizing Replication Functions of the Filamentous Phages of *Escherichia coli*. By K. GEIDER 2287-2303

BACTERIAL

- Effect of P22-mediated Receptor Release and of Phage DNA Injection on Cell Viability of *Salmonella typhimurium*. By A. VILLAVERDE, R. GUERRERO and J. BARBÉ 2561-2564

PLANT

- Expression of Potato Virus X Resistance Gene *Rx* in Potato Leaf Protoplasts. By S. E. ADAMS, R. A. C. JONES and R. H. A. COUTTS 2341-2345
The Stability of Cowpea Mosaic Virus VPg in Reticulocyte Lysates. By A. DE VARENNES, G. P. LOMONOSSOFF, M. SHANKS and A. J. MAULE 2347-2354
Effects of Anti-microtubule Agents on the Assembly of Tobacco Mosaic Virus Coat Protein. By R. S. S. FRASER, C. M. CLAY and M. J. W. WEBB 2489-2495

ANIMAL

- Nucleotide Sequence of a Cloned Hepatitis B Virus Genome, Subtype *ayr*: Comparison with Genomes of the Other Three Subtypes. By H. OKAMOTO, M. IMAI, M. SHIMOZAKI, Y. HOSHI, H. IIZUKA, T. GOTANDA, F. TSUDA, Y. MIYAKAWA and M. MAYUMI 2305-2314
Comparative Expression of Hepatitis B Virus Antigens in Several Cell Model Systems. By S. ASPINALL, J. ALEXANDER and P. BOS 2315-2323
Human Interferon Alpha and Gamma Production by Lymphocytes During the Generation of Influenza Virus-specific Cytotoxic T Lymphocytes. By Y. K. YAMADA, A. MEAGER, A. YAMADA and F. A. ENNIS 2325-2334
Establishment of a Mouse Model for Human Rhinovirus Infection. By F. H. YIN and N. B. LOMAX 2335-2340
Selection and Characterization of an Interferon-responsive Clonal Cell Line of HeLa Cells. By A. L. Z. SAKURAGI and E. H. SIMON 2355-2364
Characterization of the IE110 Gene of Herpes Simplex Virus Type 1. By L. J. PERRY, F. J. RIXON, R. D. EVERETT, M. C. FRAME and D. J. MCGEOCH 2365-2380
Transcriptional Organization of Bovine Papillomavirus Type 4. By K. T. SMITH, K. R. PATEL and M. S. CAMPO 2381-2393
Characterization of Transforming Viruses Rescued from a Hamster Tumour Cell Line Harboured the *v-src* Gene Flanked by Long Terminal Repeats. By J. GERYK, J. PICHRTOVA, R. V. GUNTAKA, S. GOWDA and J. SVOBODA 2395-2404
The Genome-linked Proteins of Aphthoviruses: Specific Immunoprecipitation of the Three Species Detected on Virus RNA and Identification of Possible Precursors. By D. V. SANGAR, R. P. CLARK, D. J. ROWLANDS, J. L. BITTLE and R. A. HOUGHTEN 2405-2414
Production of Monoclonal and Monospecific Antibodies against Non-capsid Proteins of Poliovirus. By L. PASAMONTES, D. EGGER and K. BIENZ 2415-2422
The Effect of pH on the Early Interaction of West Nile Virus with P388D1 Cells. By T. KIMURA, S. W. GOLLINS and J. S. PORTERFIELD 2423-2433
Restricted Expression of Measles Virus Proteins in Brains from Cases of Subacute Sclerosing Panencephalitis. By U. G. LIEBERT, K. BACZKO, H. BUDKA and V. TER MEULEN 2435-2444
VP7 Serotype-specific Glycoprotein of OSU Porcine Rotavirus: Coding Assignment and Gene Sequence. By M. GORZIGLIA, Y. AGUIRRE, Y. HOSHINO, J. ESPARZA, I. BLUMENTALS, J. ASKAA, M. THOMPSON, R. I. GLASS, A. Z. KAPIKIAN and R. M. CHANOCK 2445-2454
Antigenic Analysis of Rotavirus Isolates using Monoclonal Antibodies Specific for Human Serotypes 1, 2, 3 and 4, and SA11. By R. HEATH, C. BIRCH and I. GUST 2455-2466
Virus-neutralizing Antibodies to Hepatitis B Virus: The Nature of an Immunogenic Epitope on the S Gene Peptide. By J. WATERS, M. PIGNATELLI, S. GALPIN, K. ISHIHARA and H. C. THOMAS 2467-2473

Contents continued on inside back cover

	PAGES
The Peplomers of Berne Virus. By M. C. HORZINEK, J. EDERVEEN, B. KAEFFER, D. DE BOER and M. WEISS	2475-2483
The Haemagglutinating Activity of Berne Virus. By R. ZANONI, M. WEISS and E. PETERHANS	2485-2488
Establishment of Herpes Simplex Virus Latency <i>in vitro</i> with Cycloheximide. By K. SHIRAKI and F. RAPP	2497-2500
Restoration of Wild-type Pathogenicity to an Attenuated DNA Polymerase Mutant of Herpes Simplex Virus Type 1. By B. A. LARDER, J. J. LISLE and G. DARBY	2501-2506
The Products of Herpes Simplex Virus Type 1 (HSV-1) Immediate Early Genes 1, 2 and 3 Can Activate HSV-1 Gene Expression <i>in trans</i> . By R. D. EVERETT	2507-2513
Detection of Bovine Herpesvirus Type 1 RNA in Trigeminal Ganglia of Latently Infected Rabbits by <i>in situ</i> Hybridization. By D. L. ROCK, W. A. HAGEMOSER, F. A. OSORIO and D. E. REED	2515-2520
Induction of Oligo-2',5'-adenylate Synthetase in Human Lymphoid Cells Treated with 5-Azacytosine and 5-Iododeoxyuridine. By N. FUJII and K. OGUMA	2521-2526
Reactivity of Anti-peptide and Anti-poliovirus Type 3 Monoclonal Antibodies with Synthetic Peptides. By M. FERGUSON, S. E. REED and P. D. MINOR	2527-2531
Shedding and Interspecies Type Sero-reactivity of the Envelope Glycopolypeptide gp120 of the Human Immunodeficiency Virus. By J. SCHNEIDER, O. KAADEN, T. D. COPELAND, S. OROSZLAN and G. HUNSMANN	2533-2538
Antibody-mediated Early Death <i>in vivo</i> after Infection with Yellow Fever Virus. By A. D. T. BARRETT and E. A. GOULD	2539-2542
Complete Sequence of the Major Nucleocapsid Protein Gene of Human Parainfluenza Type 3 Virus: Comparison with Other Negative Strand Viruses. By R. C. JAMBOU, N. ELANGO, S. VENKATESAN and P. L. COLLINS	2543-2548
Developmental-dependent Replication of Minute Virus of Mice in Differentiated Mouse Testicular Cell Lines. By E. GUETTA, D. RON and J. TAL	2549-2554
Sequence Reiteration Required for the Efficient Growth of BK Virus. By K. HARA, Y. OYA, H. KINOSHITA, F. TAGUCHI and Y. YOGO	2555-2559
Nucleotide Sequence of a Portion of the <i>Autographa californica</i> Nuclear Polyhedrosis Virus Genome Containing the <i>EcoRI</i> Site-rich Region (<i>hr</i> ₅) and an Open Reading Frame just 5' of the p10 Gene. By A. LIU, J. QIN, C. RANKIN, S. E. HARDIN and R. F. WEAVER	2565-2570

THE SOCIETY FOR GENERAL MICROBIOLOGY

The Society for General Microbiology was founded to promote the advancement of microbiology, providing a common meeting ground for those working in various specialized fields including medical, veterinary, agricultural and economic microbiology. The Society is concerned with the more fundamental aspects of the study of bacteria, viruses, micro-fungi, protozoa and microscopic algae and in their various biological activities, its members being united by the common aim of developing scientific knowledge concerning micro-organisms.

The annual subscriptions to the Society for 1987 are as follows:

Ordinary Member receiving either the <i>Journal of General Microbiology</i> or the <i>Journal of General Virology</i>	£37.00	(U.S.\$70.00)
Ordinary Member receiving both Journals	£68.00	(U.S.\$130.00)
Ordinary Member who does not receive Journals	£10.00	(U.S.\$18.00)
Student or Retired Member receiving either the <i>Journal of General Microbiology</i> or the <i>Journal of General Virology</i>	£17.00	(U.S.\$32.00)
Student or Retired Member receiving both Journals	£34.00	(U.S.\$64.00)
Student or Retired Member who does not receive Journals	£5.00	(U.S.\$9.00)

All correspondence concerning applications for membership, changes of name and address, or payment of subscriptions should be sent to the Society for General Microbiology, Harvest House, 62 London Road, Reading RG1 5AS, U.K.

All communications concerning the purchase of the Journals by non-members should be addressed to the Society for General Microbiology (Journal Sales), 62 London Road, Reading RG1 5AS, U.K. Further details are given at the front of this Journal.
