For local travelers looking for an experience in their own backyard, this book is the essential guide to things to see and do around Austin, from Waco's Texas Ranger Hall of Fame to Museum of Handmade Furniture in Braunfels.

"How does an ex-cop like MACK MARTIN become a private detective? Well, it could be because his old man, "Trigger" Martin, was one of the nation's crack sleuths and taught Mack all the tricks, before a killer's bullet ended his career. It could be that he's not so tough behind that hard-boiled exterior, and certain things count with him! It could be that he decided to start his own private war with the Underworld! It couldn't be that maybe it's because his guts and sleuthing ability make up a combination that has the department's admiration and the crime boys marking his as number one on their death parade!!" MACK MARTIN may be a stereotype, a man who would be out of place in any other time, and certainly socially and professionally inappropriate in modern times - but that's what makes him so good; he's a man of his time! MACK MARTIN may have only appeared in seven issue of Super-Mystery Comics, but he made an impression - and he will on you!

GWANDANALAND COMICS(TM): We specialize in character collections - many for the first time in print; we also publish individual issues from the past as well as complete comic title series'. Our books are not digitally remastered; we use images from actual comics, and make only minor adjustments to bring out their best characteristics without losing the authentic feel - it is rarely perfect, but we believe it is exciting. We take your requests and create special collections never gathered together before! At Gwandanaland Comics we take the extra time to give you the best quality possible!

Monthly magazine devoted to topics of general scientific interest.

This book interrogates the nature of anti-Americanism today and over the last century. It asks several questions: How do we define the phenomenon from different perspectives: political, social, and cultural? What are the historical sources and turning points of anti-Americanism in Europe and elsewhere? What are its links with anti-Semitic sentiment? Has anti-Americanism been beneficial or self-destructive to its “believers”? Finally, how has the United States responded and why? The authors, scholars from a multitude of countries, tackle the potential political consequences of anti-Americanism in Eastern and Central Europe, the region that has been perceived as strongly pro-American.
